

Superb Investment Opportunity

Would in excess of an 11% p.a.¹ Return on Investment be of HIGH interest to you?... And it *could* even be a lot more!

(¹average over the first 5 years, followed by a continuing return of at least 6% p.a.)

And your initial outlay is just £149.00²

I know it sounds 'too good to be true', but let me show you how to invest in your own FREEHOLD shared holiday home in a luxury 5* resort complex so that you not only achieve these minimum returns, but have access to a lifetime of worry free, maintenance free holidays... and I haven't even mentioned the (almost certain) potential for Capital Gain as well!

For more detailed information please contact Chris Ornstien
